

DAMURIN

COMPANY PROFILE

About Us

Founded in 1997 by the late Brian Smedley, now led by Darnisah Smedley and Adam Smedley in Batam, Indonesia. Damurin ceased operations in 2013 but reopened in 2024. Its first project after reopening is the Manjung 4 Power Plant in Lumut, Malaysia.

We provide comprehensive insulation solutions for the oil & gas, petrochemical, marine, and power generation industries.

From survey and design to fabrication and installation, we manage the entire process in-house.

Backed by strong technical expertise and a commitment to quality, our insulation systems are engineered to deliver durability, efficiency, and reliable performance in demanding operating environments.

MISSION

Our mission is to deliver high-quality, timely, and cost-effective solutions by staying responsive to industry needs and committed to customer satisfaction.

VISION

Our vision be a global leader in industrial insulation, delivering innovative, sustainable solutions that enhance energy efficiency across the oil & gas, petrochemical, marine, and related sectors. We aim to revolutionise the industry through cutting-edge technology, exceptional service, and a commitment to continuous growth, creativity, and excellence.

Core Services

We provide comprehensive insulation solutions across oil & gas, marine, petrochemical, and power generation sectors. We deliver complete insulation packages from survey and engineering to fabrication and installation.

Thermal & Protective Insulation Systems

- Hot Insulation Systems
- Cold Insulation Systems (Cryogenic & Anti-Condensation)
- Acoustic Insulation Systems
- Passive Fire Protection (PFP)
- Personnel Protection Insulation

Removable Insulation Systems

- Custom Removable Thermal Insulation Jackets
- Exhaust & High-Temperature Equipment Covers
- Turbine, Valve & Flange Covers

Cladding & Jacketing Works

- Stainless Steel Cladding (SS304 / SS316)
- Aluminium Cladding
- Metallic Jacketing Systems
- Non-Metallic Jacketing (Weatherproof & Corrosion-Resistant Systems)

Industrial Insulation Services

- Piping & Equipment Insulation
- Tank & Vessel Insulation
- Ducting & Exhaust Insulation
- Maintenance, Replacement & System Upgrades
- On-Site Survey & Technical Support

Our Products

Our insulation products are manufactured using a wide range of high-performance materials and finishes to suit specific operating conditions. These include metallic and non-metallic outer jackets such as stainless steel (SS304 / SS316), aluminium, silicone-coated fibreglass cloth, PTFE cloth, heat-treated fibreglass cloth, and ceramic fibre cloth.

Insulation cores may consist of ceramic fibre, mineral wool, calcium silicate, aerogel, or other thermal materials depending on temperature and performance requirements. Systems are assembled using industrial-grade fastening solutions including Velcro, straps, buckles, lacing wire, drawstrings, D-rings, springs, and PTFE-coated thread to ensure durability, safety, and long service life.

Example of Damurin's Removable Insulation Covers for Block & Bleed Valves

Kasawari Gas Development Project - Petronas (2026)

Notable Project

ConocoPhillips *Belanak Natuna FPSO 2004*

Damurin supplied both Contratherm insulation and custom removable jackets for the Belanak Natuna FPSO, operated by ConocoPhillips. These insulation systems were engineered to meet the demanding conditions of offshore operations, providing thermal protection, personnel safety, and maintenance flexibility.

This project marked a significant milestone in Damurin's history, showcasing our capability to deliver high-quality insulation systems for complex, high-risk environments.

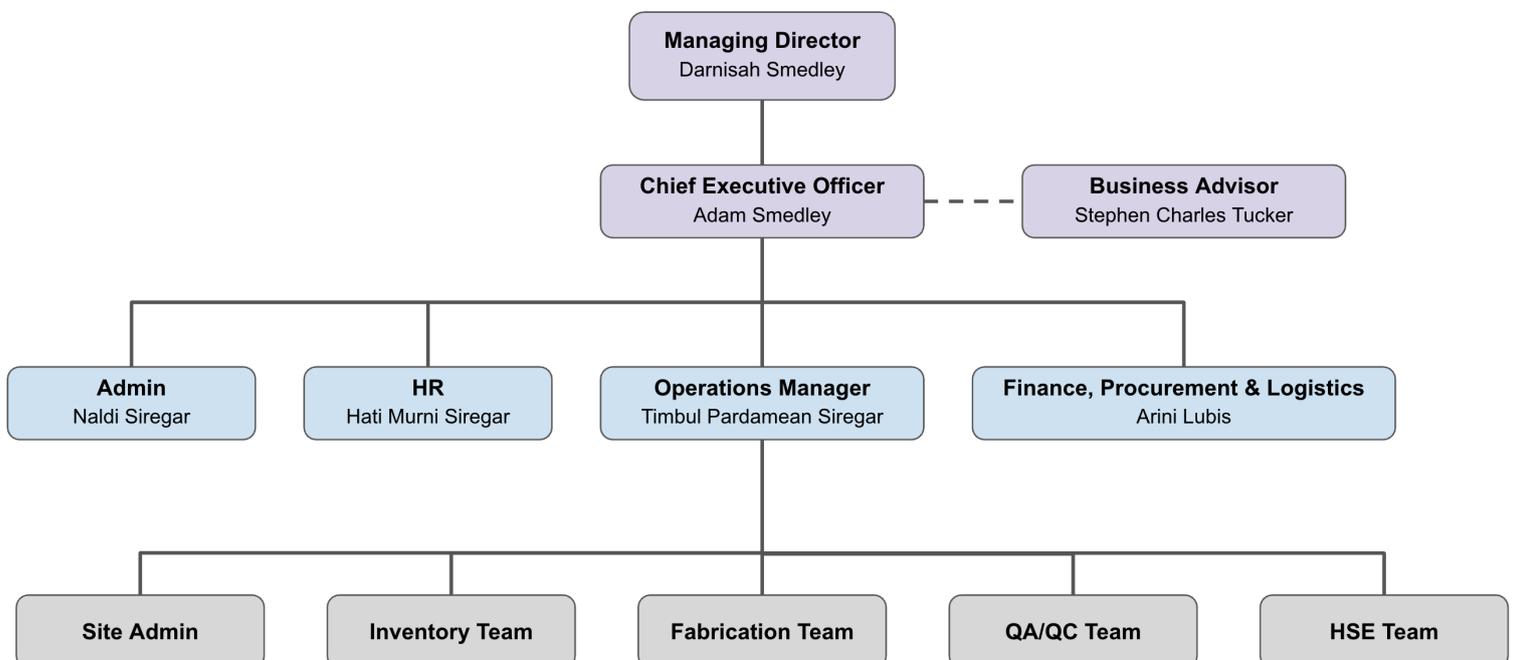

Company Organisation

PT Damurin operates under the leadership of Darnisah Smedley (Managing Director) and Adam Smedley (Chief Executive Officer), with advisory support from Stephen Charles Tucker (Business Advisor).

The management structure is further supported by Naldi Siregar (Admin), Hati Murni Siregar (HR), Timbul Pardamean Siregar (Operations Manager), and Arini Lubis (Finance, Procurement & Logistics), with dedicated teams overseeing Site Administration, Inventory, Fabrication, QA/QC, and HSE functions.

Together, this structure ensures clear reporting lines, defined responsibilities, and coordinated oversight across all levels of the organisation, supporting steady operations and consistent project delivery.

Company Organisation Chart

Damurin Past Projects

Project	Location	Year	Client	Owner / End User	Scope of Work
Kasawari Gas Development Project	Sarawak, Malaysia	2026	RM Leopad Sdn Bhd	Petronas, MMHE	Fabrication & Supply of 484 pieces of Insulation Covers
Manjung 4 - Power Plant Steam Turbine	Lumut, Malaysia	2024	RM Leopad Sdn Bhd	Tenaga Nasional Berhad & GE	Fabrication, Supply and Installation of 64 Insulation Blankets
East Timor Offshore Manpower Supply	East Timor	2011	Alderley Materials Limited	-	Offshore Manpower Supply, For Contratherm and PFP Application
Profab Engineering	Batam, Indonesia	2011	Profab Engineering	-	Supply of Removable Insulation Covers
Nomad Engineering	Malaysia	2009	Nomad Engineering	-	Supply of Removable Insulation Covers
Belanak Natuna FPSO	Batam, Indonesia	2004	PT Alderley, T&M Supplies	Conoco Indonesia Inc. Ltd	Supply of Removable Jackets and, Contratherm Subsea Thermal Insulation
MLNG-Tiga Pipeline Project	Bintulu, Sarawak	2003	RM Leopad Sdn Bhd	Petronas Carigali Sdn Bhd	PFP Coating and Removable Covers
STK Manifold Exhaust Insulation	Singapore	2003	Newtex Asia Pacific Pte Ltd	Singapore Technologies Kinetics	Supply of Removable Insulation Covers
Cape East - Fendolite Mill Supply	Singapore	2002	Cape East Singapore Pte Ltd	Cape East Singapore Pte Ltd	Supply of Removable Insulation Covers
Tuas Pharmaceutical Project	Singapore	2002	Spirax Sarco Pte Ltd	Pfizer	Supply of Removable Insulation Covers
Yetagun B Platform - Phase 2 Upgrade	Myanmar	2002	Kvaener E&C Pte Ltd	Premier Petroleum Myanmar Ltd	Supply of Removable Insulation Covers
Optima Chemicals Butanol / Derivatives Project	Kerteh, Teranganu	2002	Bechtel Sdn Bhd	Optima Chemicals Sdn Bhd	Supply of Removable Insulation Covers
Shell EA Project	Jurong, Singapore	2002	Austin Energy, Shell	Shell	Supply of Removable Insulation Covers

Damurin Past Projects

Project	Location	Year	Client	Owner / End User	Scope of Work
MSD Project	Tuas, Singapore	2002	Cape East Singapore Pte Ltd	Merck, Sharpe & Dhome	Supply of Removable Insulation Covers
Profab Weld Neck Flange Covers	Batam, Indonesia	2002	PT Profab Indonesia	PT Profab Indonesia	Removable Weld Neck Flange & Blind Covers
Benguela - Belize Project	Jurong, Singapore	2002	McDermott SE Asia Pte Ltd	Chevron & Cabinda Gulf Oil Company Ltd	Personnel Protection Insulation Works
McDermott Blastnig & Painting	Batam, Indonesia	2002	PT Jay Ray McDermott	PT Jay Ray McDermott	Blasting & Painting and Personnel Supply
Pfizer Tuas Project	Singapore	2002	Spirax Sarco	Pfizer	Supply of Removable Insulation Covers
FEI Project	Singapore	2002	Newtex Asia Pacific Pte Ltd	F.E.I.	Supply of Removable Insulation Covers
Insulation Materials Supply	Terengganu, Malaysia	2001	RM Leopad Sdn Bhd	-	Supply of Fireproofing Materials
USNS Pecos - Henry J. Kaiser Oiler	Singapore	2001	Foam Insitu Services Pte Ltd	United States Navy	FIS (Foam Insitu Services) & Removable Anti-Leakage covers
Sembawang Project - Removable Covers	Sembawang, Singapore	2001	Foam Insitu Services Pte Ltd	-	Supply of Removable Insulation Covers
Jurong SOP Boiler No.2	Jurong, Singapore	2001		ASK Singapore Pte Ltd	Supply of Removable Insulation Covers
Chempet - Dupont Project	Singapore	2001	Chempet Insulation	Dupont Chemicals	Supply of Removable Insulation Covers
Syngas Project	Singapore	2000	Austin Energy	-	Supply of Removable Insulation Covers

Our Facilities

Our manufacturing unit is located in Batam, Indonesia, and has been purpose-designed for the production of high-performance removable insulation jackets.

The facility includes dedicated areas for material preparation, industrial sewing, assembly, and final quality inspection. All configured for both custom and large-scale production.

With an experienced team and renewed commitment to quality, we deliver reliable, precisely built insulation solutions tailored to modern industry demands.

Where we're based

Batam, Riau Islands, Indonesia

Strategic Proximity to Major Markets: Batam is located near key shipping lanes and major oil & gas markets like Singapore and Malaysia, facilitating efficient logistics and export operations.

Developed Infrastructure: Batam boasts modern infrastructure with well-developed shipyards, fabrication yards, and port facilities that support the construction, maintenance, and repair of oil rigs, vessels, and equipment.

Head Office (Batam Centre)

Komplek Ruko Citra Indah, Blok A1 No. 3, Batam Centre,
Batam, Indonesia 29444

Fabrication Facility (Batu Aji)

Komplek Ruko Tembesi Center Blok A11 No. 8, Batu Aji,
Batam, Indonesia 29424
